22/75 FINANCE & RESOURCES**75.1 Draft Budget 2023/24 and Three-Year Financial Plan**

The Vice Principal Finance and Resources reported on the Budget 2023/24 and Three-Year Financial Plan (circulated, document June 23/5).

It was noted that the budget had been prepared by the Interim Vice Principal Finance and Resources, following detailed discussions with other members of the SLT.

The proposed budget included the following:

Summary detailing

- Income based on an assumed number of students.
- Percentage increase in fees for new and returning students, the increasing cost to LAs had been held to 0.9% for an average Day Learner
- Operating surplus
- Pay award from September 2023
- Agency costs
- Non-pay costs of note
- Exclusion of adjustments for FRS102

Specific detail of

- Income (student numbers / average fees / fee income / AEB / other)
- Pay
- Non-Pay
- Income statement
- Cashflow and Balance Sheet

Discussion points

Agreeing the budget was the leading agenda item for this meeting.

Student numbers?

It was confirmed that these were based on market analysis to provide an intelligent estimate.

Residential numbers growth – intentional or unintentional?

It was confirmed that growth was always under consideration, but funding of the provision was an issue. Respite modelling was also under review. The intent was to grow the provision if possible but in a slow and safe manner.

Agreed levels of funding compared to previous year.

It was reported the position was favourable in comparison to last year and that negotiations continued with LAs.

Number of residential learners required for a breakeven position was queried.

This detail was provided.

It was noted that it was the annual norm not to have confirmed numbers at this point as LAs were still in the process of agreeing funding.

The possibility of challenge when increasing rates versus a strong balance sheet was raised.

This was acknowledged, and that there was a tension between fees and achieving required learner numbers. However, the College had secured a % increase from the LA without being subject to the same process as ISPs. The LA considered the increase to be reasonable.

It was commented that it was a reasonable and prudent budget, but the ability to achieve a 5% increase was questioned.

It was commented that the LAs required the College to meet needs with regard to placements and that this provided for a strong pricing position.

The previous points made were agreed with, but it was noted that the strong balance sheet was based on reserves and that if the college were to invest the position would be different. It was advocated that from a commercial position small surpluses could create pressure, and this could support the case for future increases for investment.

The number of weeks provision stated was queried.

It was acknowledged that some 50-week provision had been funding this academic year.

The position of being underfunded for Element 2 was raised.

It was reported that this continued to be an area for negotiation with the LA, and discussions had highlighted the need for this funding in order to support growth. It was hoped that a more accurate reflection would be possible in the autumn, with allocated places better matching growth.

Gas and electricity fees and use of a broker was queried.

It was reported that the gas contract had been agreed subsequent to the distribution of the report (the electricity contract having already been renewed) and that a third party had been used.

It was **RESOLVED THAT**

- i. recognising the constraints under which the budget 2023/24 had been developed that it be approved;
- ii. a revised budget 2023/24 be presented in the autumn term 2023/24 when more accurate data was known on which to provide more detail. **[ACTION]**

There were common themes that appeared in both, for example the need to improve the skills of staff in working with learners with complex needs. The objectives continued to match the strategic direction of the College and it was proposed that they are retained for the new academic year 2023/24.

It was **RESOLVED THAT** the strategies/policies, as listed, be approved.

FOR INFORMATION

22/78 STANDING AGENDA ITEMS

78.1 Principal's Report

The Principal provided a summary report of developments and issues (circulated, document June 23/11).

The report provided detail on:

- Ofsted inspection, including detail of the communication of the outcome.
- Strategic Plan update
- Whitbread / Premier Inn update
- Staff Celebration

Discussion points included:

Ofsted

Communications relating the inspection outcome appeared well planned.

The achievement in the context of learner growth, COVID-19 retention and recruitment was acknowledged and emphasised.

Whitbread / Premier Inn update

It was commented that an extraordinary relationship was developing. It was questioned how well the College was set to meet the demands of the developments.

It was reported that there had been a significant focus on Ofsted but that work on developments had continued, and would do so over the summer, with the intent to provide more detail early in the autumn term.

It was noted that this presented interesting and exciting opportunities but there was a need to retain a focus on the core provision.

Celebration – it was confirmed that Governors were invited to the half day event on 31.08.2023.

It was **RESOLVED THAT** the Principal's update report be noted and received.

78.2 QuIP 2022/23

The Vice Principal Quality and Curriculum reported on updates against the Quality Improvement Plan (circulated, document June 23/12).

Additions were highlighted in amber. It was emphasised that it was an iterative document that developed throughout the academic year. Detail from the recent Ofsted inspection had been included in the impact. The next iteration of the report would be to close it out and identify any points that would be carried forward into 2023/24.

It was **RESOLVED THAT** the update against the Quality Improvement Plan (QuIP) 2022/23 be noted and received.

78.3 Student Numbers

The Vice Principal Quality and Curriculum presented the report on the Student Numbers (circulated, document June 23/13).

There was a slight increase in applications year on year.

It was **RESOLVED THAT** the report on Student Numbers be noted and received.

78.4 Data Dashboard 2022/23

The Data Dashboard was considered (circulated, document June 23/14).

The following points were highlighted:

Improving Learning, Teaching and Assessment (ILTA)

End of year outturn would feed into the targets for next year.

Discussion:

Feedback on attendance resulting from Ofsted inspection.

It was reported that in the calculation of learner attendance rates Ofsted included sickness where the College did not, particularly where the absence was linked to a learners' disability. It was suggested that both would be reported next year.

Delivering Responsibilities in Partnership

Face to face safeguarding training was 99%

Online safeguarding training was 100%

Making the Most of College Resources

Staff Appraisal rate had increased.

Discussion:**Annual cycle – timescale?**

It was confirmed that completion should be by the end of the academic year, but this was impacted by long term sickness absence.

It was noted that the end of year outturn would be reported in October and that this would inform discussions on targets / indicators for the 2023/24 academic year.

It was **RESOLVED THAT** the Data Dashboard 2022/23 update report be noted and received.

22/79 STRATEGY**Strategic Plan – Development Plan Update**

The Principal provided an update against the Strategic Plan Development Plan (circulated, document June 23/15).

It was reported that the delivery plan contained 21 objectives highlighted in the strategic plan and collectively provided 101 performance indicators/outcomes that chart the progress of the objectives up to the start of the academic year 2023/24. Substantial progress had been made on the vast majority of objectives. The central themes of the creation of outstanding provision and outstanding learner behaviour management had been met whilst maintaining outstanding financial health.

Supported apprenticeships and work relating to CQC inspection were highlighted as areas for further development.

Discussion points included:

It was queried if there should be a standing agenda item for reporting on the quality of care, or if this should be considered as part of the external governance review.

Mr Bray was invited to comment / contribute on the parameters for such reporting.

How would a new Strategic Plan be developed with reference to existing Strategic Plan, Ofsted Inspection and the planned Strategy Event (autumn term).

It was reported that it was intended that the process would be similar to that followed previously, allowing for reflection on the position with regard to quality, what is required to maintain the standard of provision assessed as outstanding and the resources required to deliver what was wanted.

It was anticipated that this would include the quality of resources for learners, further consideration of skills and employability, increased paid employment outcomes and required innovation.

It was commented that this would need to be considered /tracked against investment plans / use of capital / accommodation strategy.

This was agreed and that all areas of the campus requiring improvement would be considered.

It was **RESOLVED THAT** the update Strategic Plan Development Plan be noted and received.

22/80 QUALITY & CURRICULUM**80.1 Quality & Standards Committee Meeting, 21st June 2023**

Attention was drawn to:

- development of the Internal Audit Service (IAS) Plan had included the suggestion that there be a review of how well the college finance department supports the wider college. The SLT would consider this.
- Risk Management - increase in residual risk assessment relating to the *'provision of fit for purpose IT systems and services, limiting College productivity & increasing the risk of Cyber-attacks & data breaches'*, in acknowledgement of continued inherent risk.
- Fraud Report – it was suggested that there was significant risks posed by phishing scams and that consideration should be given to the regular use of spoof phishing email withing college.it was acknowledged that this would need to be communicated properly to staff, emphasising that the intent was not to cause alarm or distress, but to heighten awareness, protect the college and individuals and to identify were there was a potential need for training.
